

Mergers & Acquisitions

Mergers and acquisitions are a necessary step in the growth of any business and our attorneys have experience representing clients on both the buy-side and sell-side of M&A transactions. Foster Garvey's M&A work includes buyouts, spinoffs, cross-border transactions, joint ventures and strategic alliances, and reorganizations.

We have represented public and private clients in a wide range of industries including retail and consumer products, fishing and maritime, clean technology, professional services, sports, real estate and technology. We also serve as special counsel to boards of directors, special committees and individual shareholders in large and small transactions. The team utilizes a proactive and creative approach to execute our clients' objectives.

Our M&A attorneys regularly call upon other firm attorneys' experience in areas such as tax, securities, employee benefits, intellectual property, creditors' rights and bankruptcy, real estate, antitrust and consumer protection, government relations, employment and labor, environmental and litigation as needed for each transaction.
