The Oregon Society of Certified Public Accountants (OSCPA) will be hosting its 2021 Annual Real Estate Conference as a live webcast on Wednesday, June 9, 2021. I've been a frequent speaker at the OSCPAs conferences over the past 30+ years. This year, I am looking forward to present on "Section 1031 Exchanges: A Look At Recent Developments and Other Tax Deferral Alternatives."

As in previous years, the OSCPAs Annual Real Estate Conference will cover critical issues and current developments in real estate accounting, development, financing, and taxation. Major topics that will be discussed include: Oregon CAT Update for Real Estate; Section 199A – Planning, Strategies, and Considerations; The CARES Act and More – A Federal Income Tax Update for the Real Estate Industry; Tax Treatment of Tenant Lease Modifications, and more.

I hope you will join us for what will be a fantastic program jam-packed with new information and tools that will help you in your tax and real estate practice. Looking forward to seeing you virtually!
